

How to run the code:

1. Go to <https://github.com/darrennicholas/NLP-Project>
2. Clone the coding
3. Open the terminal
4. Write this “python -m venv venv” in the terminal then
5. Write this “.\venv\Scripts\Activate”
6. Follow it up with this “pip install torch transformers pandas numpy scikit-learn Sastrawi tqdm matplotlib seaborn streamlit gradio”
7. Then open a new terminal and write this “streamlit run app.py” for the streamlit or “python app.py” for the gradio
